

# Eleva Bariatric

**14014** The Eleva Bariatric examination table is equipped with a broadened patient platform (100 cm) and has an increased lifting power. The high/low system increases the ergonomic ease for both the patient and the doctor.

## Support

- Rectangular tube frame.
- Stable, absolute vertical high/low adjustment by means of a scissor system.
- Design pedal to activate the brake mechanism (\*).
- The foot end of the frame is equipped with a stainless steel kickplate (\*).

## Mattress platform

- Mattress platform with one, two (\*) or 3 (\*) sections.
- The mattress platform is upholstered with fire-retardant foam. The foam is 40 mm thick and has a density of 45 kg/m<sup>3</sup>.
- Finished with imitation leather.
- The headrest (\*) can be inclined manually upwards or downwards by means of a gas spring (-40° to +40°).

## Electric manipulations

- The high/low adjustment can be activated by means of a foot pedal that can be positioned freely on the floor.
- The electric backrest adjustment (\*) can be activated by means of the same foot pedal.

## Dimensions and prestations

- Width: 100 cm
- Length: depends on the type of mattress platform
- Height variation: ± 50 cm - ± 102 cm
- Clearance height: 75 mm
- Safe working load: 350 kg
- Headrest (\*) can be inclined between -40° and +40°
- Backrest (\*) can be adjusted up to 85°

## Materials and finishing

- Metal: epoxy-coating RAL 7035.
- Fire-retardant foam.
- Upholstery: see collection.
- Withstands the common cleaning products and disinfectants.

For further information about the **used materials, constructions and maintenance**: please consult our material files.
