Vico Hospital

08700 Thanks to its hydraulic high/low adjustment, the Vico Hospital bed perfectly combines functionality, durability and an attractive price.

Carriage

- Hydraulic high/low adjustment by means of supporting arms.
- The steel frame is finished with a removable vacuum-formed synthetic cover cap (*).
- Trendelenburg adjustment up to ±12° (*).
- Reverse Trendelenburg adjustment up to ±13° (*).
- High-quality Levina design castors Ø 125 mm, with separate brakes.
- Double design pedal to activate the central brake mechanism (*).

Mattress platform

- Three- or four- (*) section mattress platform.
- The backrest can be adjusted up to ±70°, with auto-regression by means of a gas spring.
- The knee rest can be adjusted up to ±34° by means of a gas spring (in case of 4 sections).
- The legrest or footrest can be manually adjusted.
- The mattress platform is made of rounded steel mattress platform profiles.
- Standard equipped with cutouts for patients restraint straps.
- The backrest and footrest are equipped with 2 synthetic mattress holders.
- Standard with a telescopic bed extension up to + 20 cm.
- The 4 bed corners are equipped with an integrated bumper.
- The bed panels are standard equipped with a locking mechanism.
- The 4 bed corners are equipped with cases to install an IV rod or a lifting pole.
- Choice out of different bed panels.
- The side beams on both sides are equipped with 3 synthetic accessory hooks.

Bed manipulations

- The high/low adjustment is activated by means of easily accessible pedals on both sides of the bed.
- The Trendelenburg position is activated by means of the foot pedal at the foot end (*).
- The backrest and knee rest adjustments are supported by a gas spring. A lever on both bed sides guarantees a fluent activation.

Paneltypes

- Vela
- Lauro (*)
- Jaro (*only with Trix)

Sideguards

- Atmosphere (*)
- Trix (* only with Jaro-panel)
